

# Car insurance for women is lovely

## Oh, yes it is – Oh, no it's not

Ok, we won't patronise you, we know that car insurance, even car insurance for women, is possibly one of the more boring things in life, but like it or loathe it, if you want to drive your car, you can't lump it.

We also know that there are a lot of companies out there who want your hard earned money.

So, how do you choose who to buy a policy from?

Simple, you find the cheapest quote going!

Sounds easy, but getting that elusive cheap policy can be a bit of a hassle and what if you want cover for your expensive handbag. Is that included?

You need to compare a few quotes, don't you – it's universally known as shopping around.

## Not all women car insurance buyers like shopping

It seems that a lot of men have a pre-conceived idea that because you are woman, you love shopping. And, yes, as a woman I'd hazard a guess that lots of us like shopping for certain things; holidays, home furnishings and, yes, probably clothes and shoes as well.

But then again men like shopping for power tools, gadgets and sports equipment, don't they.

Honestly, no-one really likes shopping for car insurance, but unfortunately it has got to be done.

## Car insurance shopping with CoverGirl

At least, because you are woman, you will get a cheaper car insurance quote than the average power tool toting guy.

And that's because women, on average, make smaller claims on their car insurance policies than men. And female drivers over the age of 35 make, on average, the smallest claims of all.

Whether you have a brand new sports car or your dad's 25-year-old Ford Fiesta cast-off, CoverGirl can offer you the best deal on your car cover, with tailor-made quotes to suit your needs.

## Breakdown cover as standard

All CoverGirl car insurance policies have top quality breakdown cover included in the price. We believe that the way to avoid car accidents is to be as stress free as possible when driving, and embarking on a long journey by yourself is stressful enough without the added worry of a breakdown in the middle of nowhere.

Breakdown cover that runs alongside the life of your car insurance policy is perfect for every female driver out there, because when you're stranded on the side of the M4 with a car that won't

go, knowing that an accredited mechanic is coming to help you get back on the road is one of the most comforting thoughts around.

### **Car accidents don't have to be a hassle**

If you are in a car accident and you were not at fault, as soon as you give us the details of the driver who has admitted liability, we will start proceedings to get you back on the road and properly compensated.

We will organise a replacement car for as long as it takes to get your damaged car repaired or to get the insurance payment made for a written off vehicle.

We will get your damaged car taken to an insurance approved garage, assessed and, if financially viable, repaired at absolutely no cost to you.

All CoverGirl car insurance for women policies come with up to £50,000 of legal expenses cover, which means that if you have been injured, have to take time off work or your personal belongings are damaged in a car accident that was not your fault, we will instruct a personal injury solicitor to make a compensation claim on your behalf.

### **Safe and secure with CoverGirl Car Insurance Services**

Buying your car insurance online with CoverGirl couldn't be simpler. Gather together your car details and the particulars of any named drivers you want to put on the policy. Decide what level of cover you want;
