

CoverGirl online car insurance - Spend more time driving, less time buying

As a woman, I can multi-task, it's just a skill we have isn't it girls? We have to have it. We have to be able to think about Brad Pitt and type at the same time. We need to be able to talk to the kids about a year 7 maths problem, whilst mentally checking what clothes are clean for the office the following day, all the while preparing homemade chicken fajitas, and keeping an eye on the rabbit in the garden run as next door's dog comes rampaging through the bushes – again! We have to have eight eyes, ten hands and be able to sort out our online car insurance with the minimum of fuss.

I love the internet. I can do my shopping in baggy tracky bottoms, I can find out when the latest Rom Com is on at the cinema whilst conditioning my hair with an ultra-expensive hot-oil masque and I can shop for online car insurance on my laptop, in front of the TV, wearing a face pack. I can multi-task, I'm a woman and I'm good at it.

Women want a better deal from their car insurance

You've heard it before; women are safer drivers than men. We didn't say better (just in case you're multi-tasking this with your partner and he's outraged), but women do have statistically fewer accidents than men because their evolutionary gender traits are better suited to driving in today's frenetic world. That's why we can offer you a motor insurance quote, with all the benefits that men get, at a much better price.

Basically, ladies, you get a better deal with online car insurance from Cover Girl, because we're dedicated to women.

Women as a driving force

The car manufacturing market is gearing itself to producing more cars with the female driver in mind. The newest concept car we have heard of, here at CoverGirl, is a BMW sports car that's actually covered in fabric. It can change its shape to suit the driver's mood; it's a fashion item. As the doors open the super stretchy material folds and flows like a couture-cut garment, and according to designers, it would take less than two hours to change the fabric on your shape-changing car to suit the season's trend. It's a woman driver's dream.

Women buy high end cars and at CoverGirl we recognise this. We are no longer satisfied with the eight year old rust-bucket cast hand-me-down when hubby gets a brand new Audi S6; we want an Audi TTS roadster to match it on the driveway. (OK, so that may be a fantasy for many of us, but women are becoming more attracted to cars and the more we drive them the more selective we are.) We love our cars, we enjoy driving and we do it safely.

Like we said; online car insurance – less time buying, more time driving

We know that the last thing you really want to be doing is buying car insurance, so at Cover Girl we've made it as quick as it can possibly be. Have you got three minutes? Yes, then get ready to have your woman's car insurance sorted, so you can go off and drive your brand new cabriolet roadster with the wind blowing through your soft, silky, super-conditioned hair.

Click on the get a quote now button online and just fill in the details.

We'll need some personal details; age, how long you've had your licence, etc. You'll need to have basic information about your car to hand; make, model, engine size, year of manufacture, whether it has any modifications or safety devices, etc. We'll also need to know what level of cover you will require; third party only, third party fire and theft or comprehensive cover. We'll also need to know if you have any 'no claims' discount – you can find this on your old insurance company's renewal notice.

Fill this information in and we'll search through a whole range of quotes to find the best value cheap car insurance that's a perfect fit for you.
